

The market-leading blockchain-based platform that digitizes and secures document workflows across the supply chain

Automate, Secure, and Extract Live Data from Every Trade Document for Smarter & Faster Decisions
Manage eBLs, Shipping Instructions, and All Trade Documents Seamlessly with AI-Powered Automation, Compliance & Real-time Tracking

Trusted by Leading Ocean Carriers & Industry Leaders

Trusted by the Industry

5

Used by **5 of the top ocean carriers** and **20 of the top 50 freight forwarders**

Global Adoption

630,000

Over **630,000 eBLs** issued across **130+ countries**

Proven ROI

\$50

Saves up to **\$50 per BL**, reduces processing time by **80%**, and eliminates **paper-based inefficiencies**

WaveBL Data Capsule

WaveBL's blockchain-powered Data Capsule transforms trade documents into structured, tamper-proof data - ensuring authenticity, compliance, and security at every step

AI-driven automation eliminates inefficiencies with instant document validation, fraud detection, and regulatory compliance

Seamless, **fraud-resistant transactions** for ocean carriers, banks, financial institutions, customs, and supply chain partners

Blockchain-backed - for accelerating global trade by enabling trusted transactions

Documents Collection & Data Extraction

- AI-driven data extraction from trade documents
- KYC verification & compliance checks
- Full-text search & secure document archive

Automatic Document Generation & Compliance Verification

- Generates trade documents automatically
- Tracks document changes & version history
- Detects errors & ensures compatibility

W
Data Capsule

Secured Data & Document Transfer

- Tamper-proof document exchange
- Blockchain-signed transactions for verification

Real-Time Trade Data Insights

- Track & Trace for document and cargo movement
- API connection to risk analysis engines
- Real-time notifications

Competitive Edge

Automate Trade Documentation

Eliminate manual entry, prevent errors, and generate Shipping Instructions in seconds

AI-Powered Smart Search & Data Extraction

Instantly find, track, and retrieve documents while converting static files into live, searchable data

Automate Trade Documentation

Manage **eBLs, Shipping Instructions, invoices, and more** in a single, secure, AI-driven platform

Compliance & Security Without Complexity

Ensure **instant compliance** with tamper-proof, blockchain-backed transfers and real-time audit trails

Reduce Costs & Boost Efficiency

Digitize workflows, eliminate courier costs, and speed up document transfers with automation

Sustainability & Digital Transformation

Go paperless, lower carbon footprint, and transition to **fully digital trade workflows**

Join the Future of Digital Trade

Trade smarter. Trade securely. Trade with WaveBL

Empower your business with AI-driven, secure, and automated trade documentation. Reduce costs, streamline workflows, and drive smarter, data-backed decisions in a fully digital trade environment
