wave BL

Empower Your Customs Operations with **WaveBL's Secure Document Technology**

Streamline Your Cargo Releases and Prevent Fraud

With WaveBL's blockchain technology, securely transferring electronic bills of lading (eBLs), and Certificates of Authenticity (CoAs), customs clearance becomes faster, safer, and more reliable

Solving Customs Challenges

Slow Manual Processing of Shipping Documents
Causing delays in Customs clearance
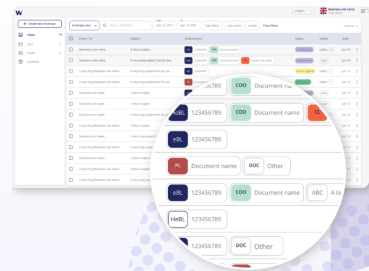

Document Authentication Issues
Increasing the risk of fraud and use of counterfeit documents

Lengthy KYC Processes
Resulting in costly delays for importers and exporters

WaveBL: The Solution for Modern Customs Operations

WaveBL is a cutting-edge platform designed to digitize and secure document workflows across the supply chain. By leveraging its blockchain technology, WaveBL ensures transparency, security, and efficiency in Customs processes

WaveBL's Key Technology Solutions

WaveBL's Electronic Bill of Lading (eBL)

- A trusted solution for securely transmitting unique trade documents
- Every envelope and document is recorded on the blockchain, ensuring transparency and traceability
- Advanced cryptography provides robust protection against fraud

Certificate of Authenticity (CoA)

- A digital, printable, and verifiable proof of shipment authenticity
- Demonstrates the source and authenticity of documents with ease

Exporter's Digital KYC

- Simplifies the verification of exporters and importers
- Combines carrier data, financial verification, and third-party digital KYC services to ensure compliance and security.

TRUSTED BY INDUSTRY LEADERS
